

# How To Behave Like A CEO

*Written by Ian Hallett*

When you meet them, CEOs don't seem very different to other senior people.

But somehow, they get the top job, with all the rewards, status and power that comes with it.

So, that raises the question: *what makes a CEO, well, a CEO?*

**But first, let's start with three common myths:**

*Myth 1:*

## **CEOs Must Be Charismatic**

Charisma is not a requirement for success.

Many successful CEOs are introverted and lead effectively through other means, such as reliability and decisiveness.

*Myth 2:*

## **CEOs Must Have a Perfect Career Path**

CEOs do not need a flawless track record.

In reality, many CEOs have experienced failures and setbacks, which have contributed to their resilience and problem-solving skills.

*Myth 3:*

## **CEOs Must Have All the Answers**

CEOs are not expected to know everything.

Instead, they excel at asking the right questions, listening to others, and leveraging the expertise of their teams.

So, what makes a CEO a CEO, then?

# The Four Key Behaviors That Distinguish Successful CEOs From Others

Analysis of 2,600 leaders published in *The CEO Next Door* identified four key behaviors that distinguish successful CEOs from others:

1. Decisiveness
2. Reliability
3. Adaptability
4. Engaging for Impact

Let's go through each of these one by one.

# 1. Decisiveness

Decisiveness is about making decisions quickly and confidently, even when you have incomplete information.

Successful CEOs are able to assess risks and make tough calls without hesitation.

Key Aspects:

- **Speed vs. Accuracy:** Balancing the need for quick decisions with the need for accurate information.
- **Confidence in Uncertainty:** Making decisions even when the outcome is uncertain.
- **Overcoming Analysis Paralysis:** Avoiding the trap of overthinking and delaying action.

## 2. Reliability

Reliability is about consistently delivering results.

It's about building trust with your team, stakeholders, and board members by doing what you say you will do.

Key Aspects:

- Consistent Performance: Delivering results consistently over time.
- Building Trust: Establishing yourself as someone others can depend on.
- Follow-Through: Ensuring that commitments are met and tasks are completed as promised.

### 3. Adaptability

Adaptability is the ability to pivot and adjust strategies in response to changing circumstances.

Successful CEOs embrace change and continuously learn to stay ahead.

Key Aspects:

- Embracing Change: Welcoming new challenges and opportunities.
- Continuous Learning: Staying open to new ideas and adapting to new information.
- Resilience: Maintaining effectiveness under pressure and through setbacks.

## 4. Engaging for Impact

Engaging for impact is about inspiring and motivating your team and stakeholders.

Successful CEOs are skilled at aligning people with the company's vision and getting buy-in for their ideas.

Key Aspects:

- Inspiring Others: Communicating a compelling vision that motivates others.
- Building Relationships: Developing strong, trust-based relationships within the organization and beyond.
- Effective Communication: Clearly articulating ideas and strategies to ensure understanding and alignment.

Okay, you're finished. How did you do?

You probably have some development gaps.

Here are some suggested next steps:

1. Assess your strongest and weakest behaviors. This will help you focus your development efforts.
2. Based on your results, set specific, measurable goals to improve in each behavior area.
3. Continue to seek feedback, learn from experiences, and refine your behaviors to become a more effective leader.
