View details

- Eliminate manual uploads with our advanced document processing
- *Measure* leverages automated intelligence to seamlessly extract data from a wide array of document formats
- Multi-language support available

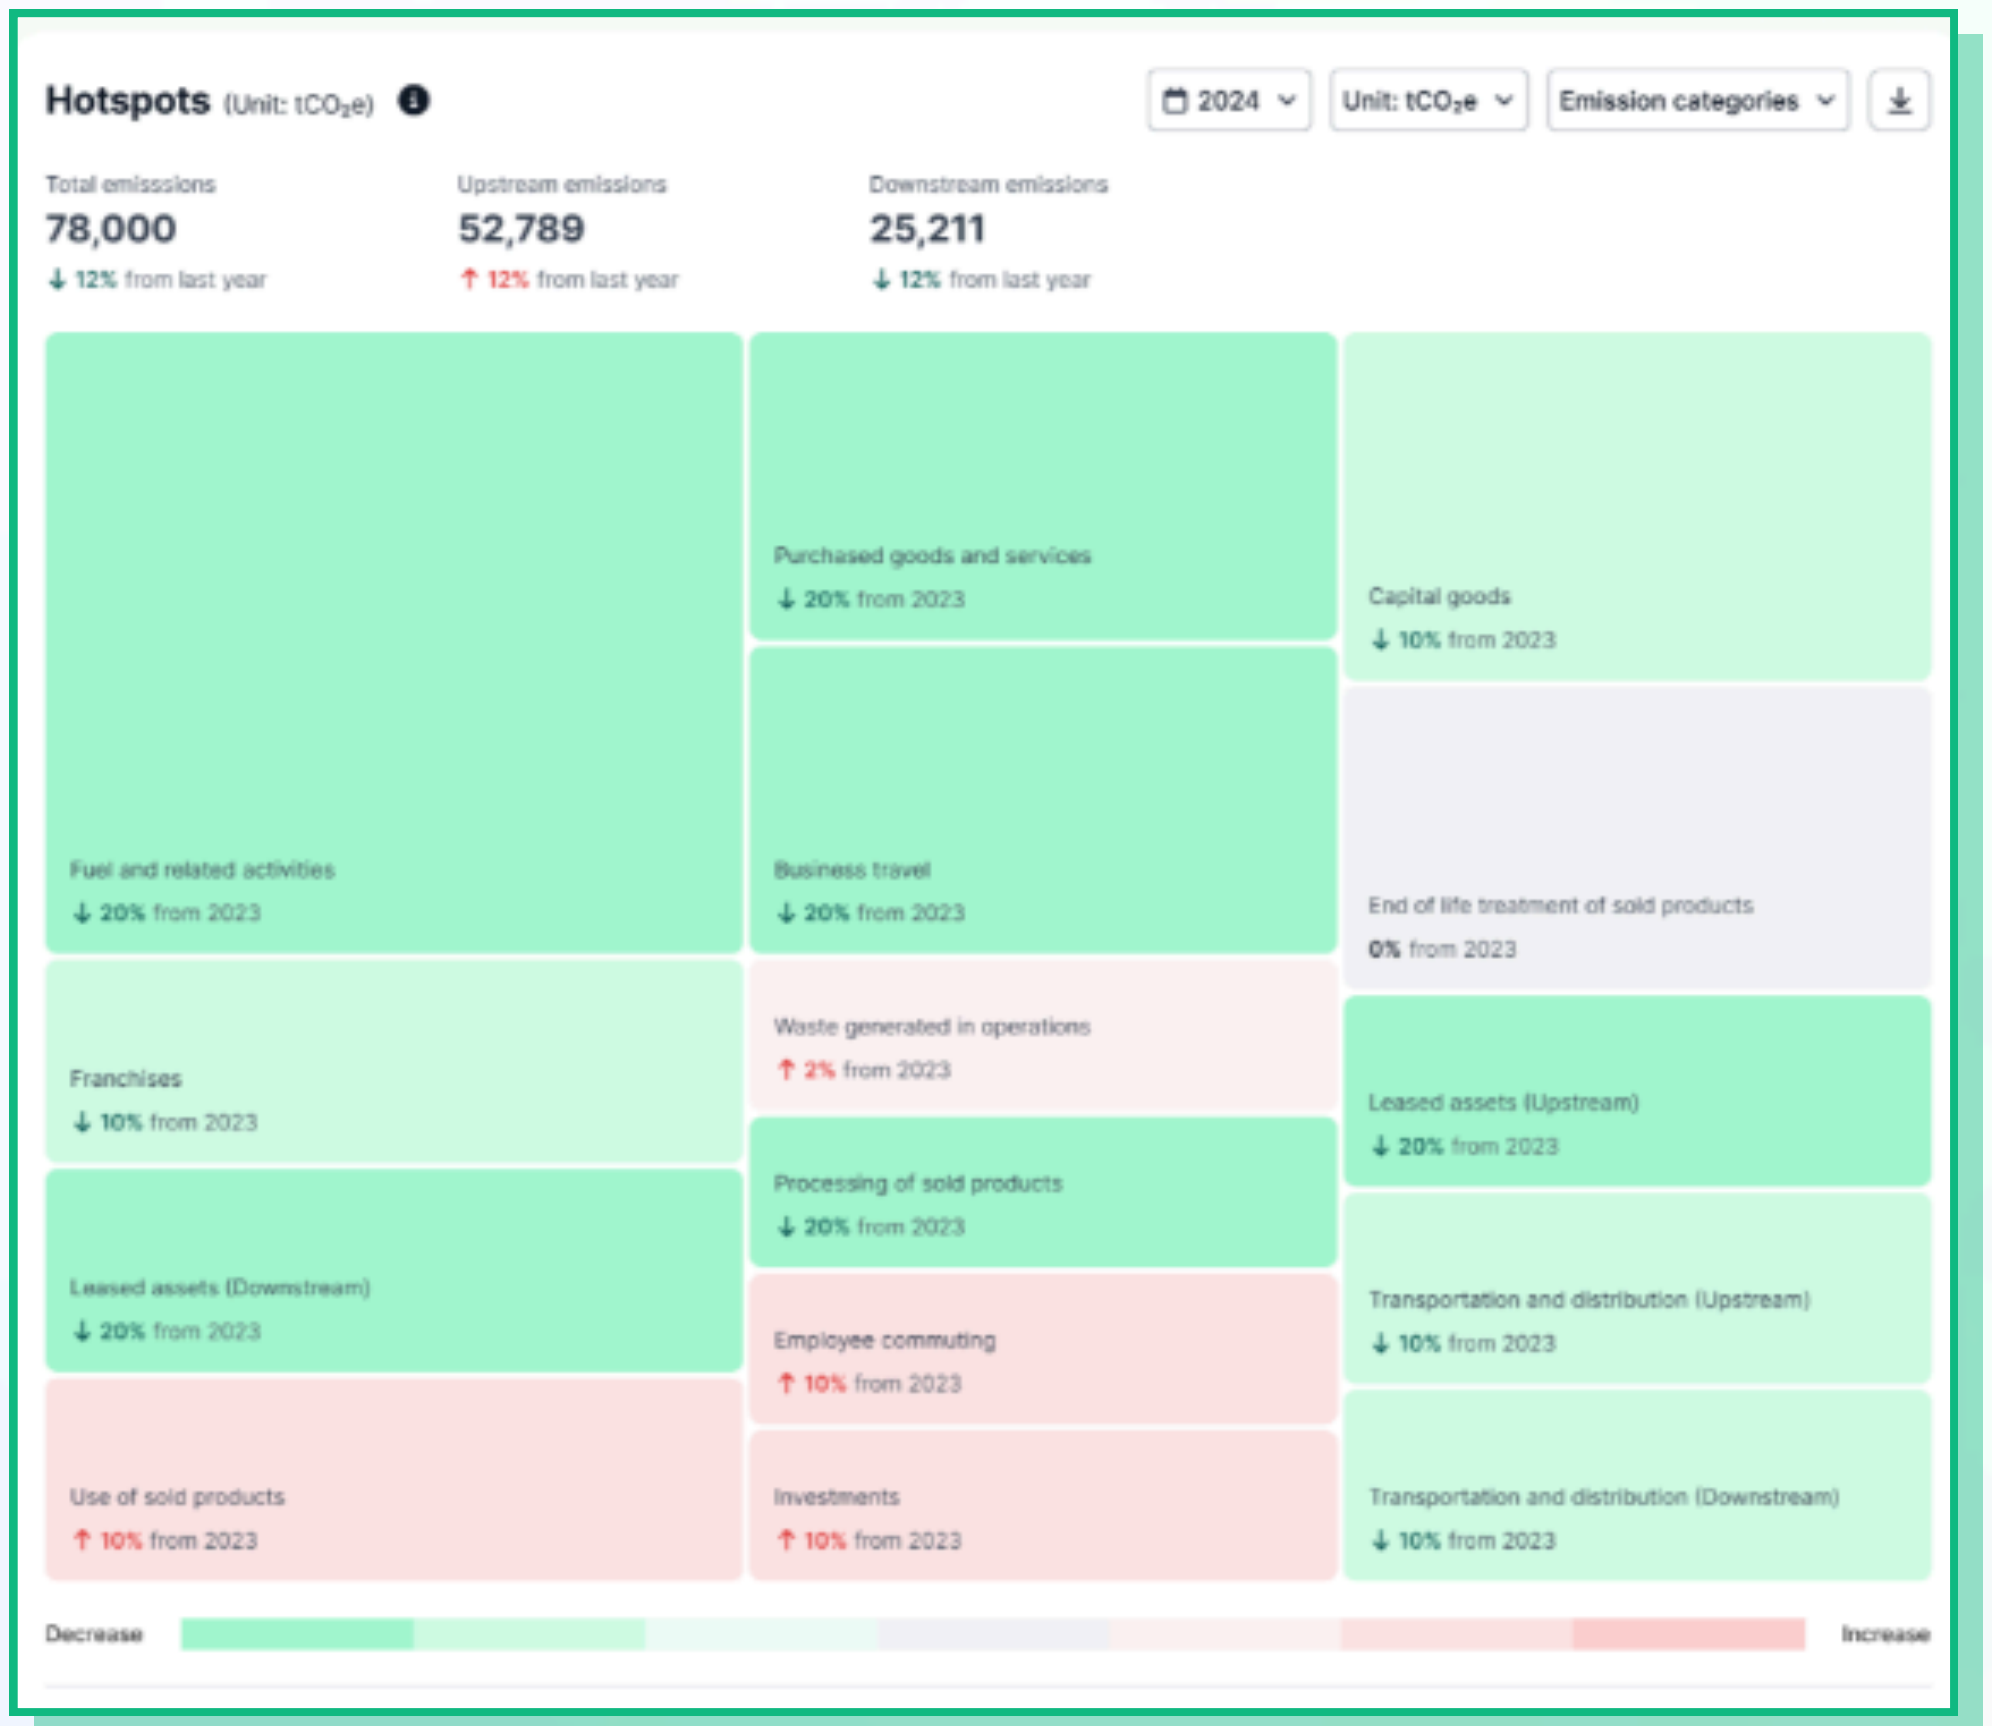

# Visualise Your Impact

Take command of your emissions data with the *Measure* dashboard. This intuitive, customisable dashboard is designed to give you a clear and comprehensive view of your organisation's carbon footprint, empowering you to:

- **Gain key insights at a glance**
- **Visualise your emissions data**
- **Compare and benchmark**

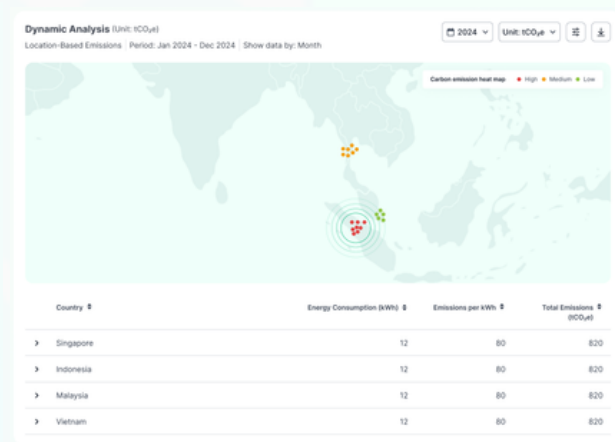

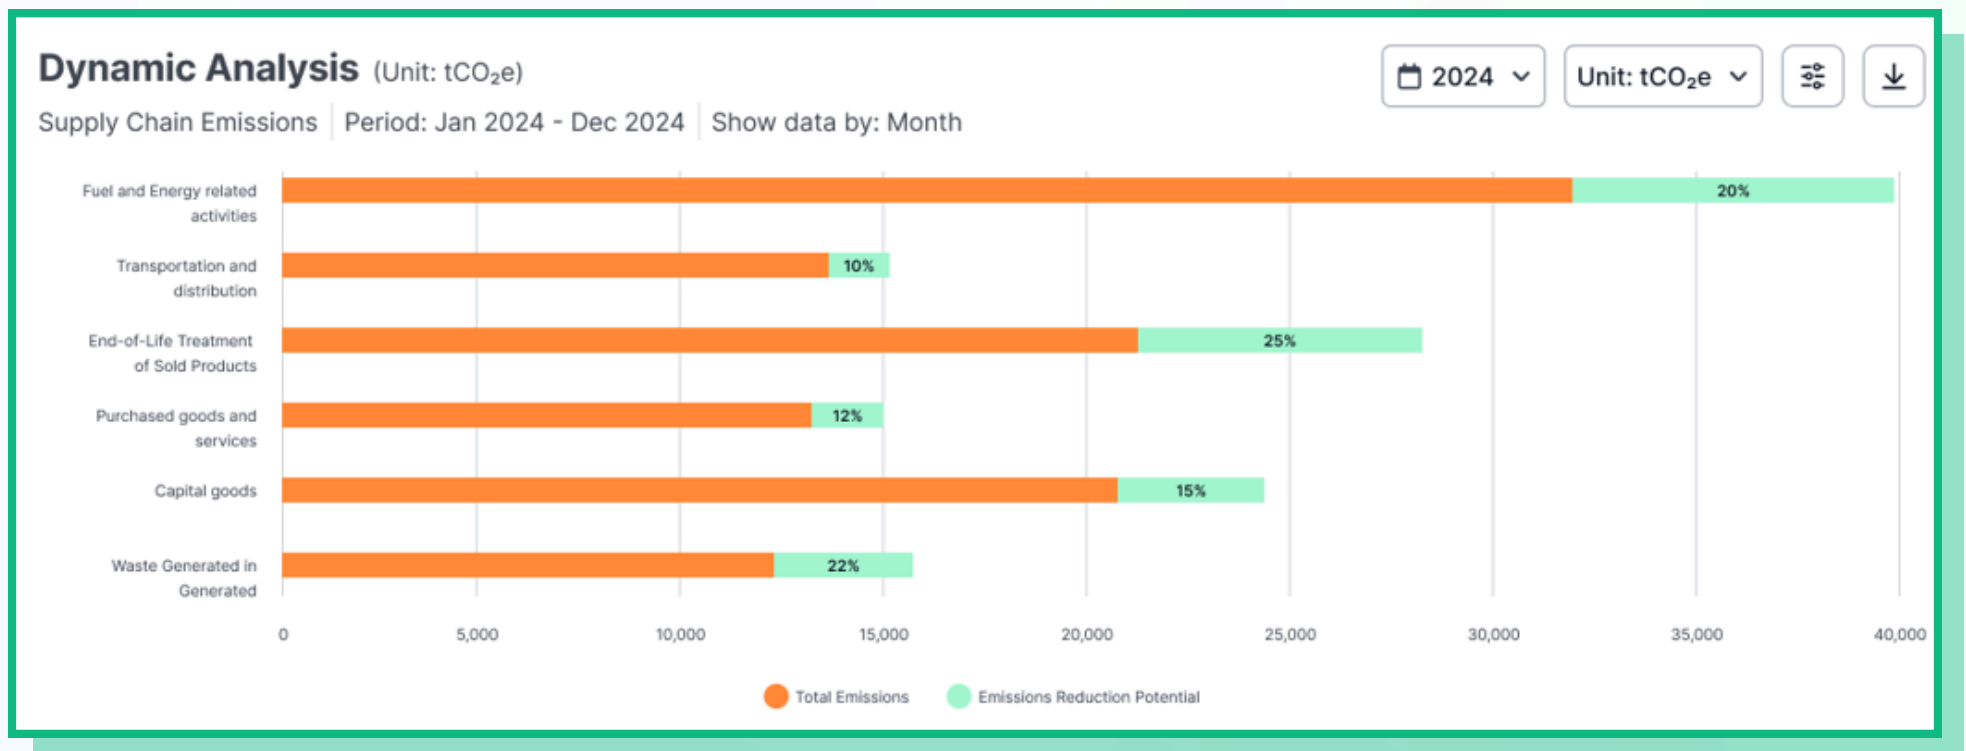

# Zero In On High Impact Areas

- Pinpoint hotspots to prioritise actions for maximum emission reductions
- Identify key operational areas contributing most to your carbon footprint

# Tailor Your Analysis

- Customise insights to dive deep into specific data
- Focus on emission sources, time periods, or business units
- Get precise information to support informed decision-making
