# Automate 90% of customer onboarding.

# Customize loan approval workflows & set up Algoan scoring retrieve in minutes.

# Easily build custom workflows for your needs with Skaleet.

Automation created to use savings interest for charitable donations.

“We will aim to automate as many tasks as possible with SPA in general, for two reasons: to reduce time spent on non-value-added tasks and to simplify the work of compliance who will carry out the checks directly on the machine.”
