

2023 ANNUAL REPORT

From Vietnam
to the World

VNG

Message from CEO

“

Dear Esteemed Shareholders, Customers, Partners, and Employees,

In 2023, VNG demonstrated remarkable resilience, exceeding the business objectives set by the General Meeting of Shareholders. Key financial metrics, including net profit and EBITDA, showed positive growth, marking 2023 as the company's first profitable year since the COVID-19 pandemic. Early in the year, Nikkei Asia recognized VNG among the top 10 Asian companies to watch in 2023.

Our net revenue for 2023 reached VND 8,605 billion, a 10% increase compared to 2022. Notably, 25% of this revenue came from areas outside our core Game segment. The adjusted operating loss improved significantly, decreasing by 30% to VND 656 billion.

From a user perspective, VNG is proud to be a Vietnamese company offering technology and entertainment products that attract millions of users both domestically and internationally. After 20 years, VNG remains the leading game publisher and developer in Vietnam, contributing significantly to the development of the Vietnamese game industry. Zalo continues to dominate as Vietnam's leading messaging platform, enhancing features and services for business customers. Our Fintech segment has adjusted its investment strategy and recorded strong growth, with ZaloPay achieving a 27% growth in total payment volume in 2023, solidifying its position as the second-largest e-wallet in the country.

VNG Digital Business focuses on three key areas: Security, AI, and Cloud and SaaS platform products. We provide solutions and services to over 1,000 enterprise partners and actively contribute to the National Digital Transformation.

Embracing new technology waves, VNG is heavily investing in AI and leading Southeast Asia in terms of AI adoption, research, and profitability. Zalo LLM was rated 150% over GPT-3.5 in December 2023, according to the Vietnamese Multitask Language Understanding Benchmark Suite. Zalo also uses GenAI to enhance user services, with its AI Avatar application attracting 6.8 million users in 2023. The smart assistant Kiki has been installed in 600,000 cars, accessed approximately 230,000 times daily. VNGGames integrates GenAI in game development with Artian, a digital art platform using the Stable Diffusion model, reducing production time and costs by up to 50-70% and tripling efficiency in some processes. GreenNode, a new member of VNG Digital Business, became an official Nvidia Cloud Partner, gaining access to Nvidia's AI Factory and advanced AI chips. VNG aims to become a leading AI company in the country and region in terms of infrastructure, platform, and application.

Committed to a global expansion strategy, VNG is among the few Vietnamese technology companies building significant businesses internationally. In 2023, our international revenue reached VND 1,707 billion, a 33% increase from the previous year. Over the next three years, VNG aims to surpass the local market in global gaming revenue and offer all our technologies and products globally, with a strong focus on AI services. We aim to be a leading provider in Vietnam and the region.

VNG will continue to strive to become a global tech company from Vietnam, targeting the global market and persistently investing in infrastructure, platforms, and core values to keep pace with the latest technological advancements.

”

Development Strategy

Business Strategy

2024 marks VNG's 20-year journey at the forefront of technological advancements, creating products that have captivated millions of users. With a clear strategic vision and unwavering determination, VNG aims to become a global tech company from Vietnam.

VNG's business strategy focuses on three key aspects: **AI - Global - Platform**.

Leading the region in AI across infrastructures, platforms & applications

VNG is one of the fastest-adopting AI businesses in Southeast Asia, leading in investment, research, deployment, and commercialization, generating revenue from AI.

Expanding global markets

Developing VNGGames and ZingPlay into global gaming companies. Over the next three years, VNG aims to surpass the local market in its global gaming revenue. Furthermore, the Company aims to make all products and services available to customers internationally.

Building scalable platforms

Committed to investing in key platforms to continuously enhance value for users and customers. Developing Zalo Mini App into a communication platform that helps businesses interact with users, and ZaloPay into a crucial digital financial platform for Vietnamese users and businesses.

VNG will also continue to promote its business areas:

Game

- Improving international business revenue to affirm its global position.
- Building professional teams that understand the culture and preferences of each market.
- Developing high-quality games that appeal to international players.

Zalo

- Zalo maintains its leadership by providing an AI-augmented customer experience.
- Staying at the forefront of research on Generative AI and Vietnamese large language models (LLM).
- Offering a comprehensive suite of solutions for customer outreach and service for business partners, institutions, and enterprises.

Fintech

- Elevating ZaloPay from an e-wallet to a superior payment application for all services and needs with diverse funding sources.
- Developing existing and new financial products to meet all financial needs, from investment and savings to consumer loans.
- Becoming a one-stop shop from payment solutions to marketing services, helping enterprises grow and enhance customer experience.

Digital Business

- Focusing on three key areas: Security, AI, and Cloud & SaaS platform products, providing solutions and services to over 1,000 enterprise customers.
- Establishing a new standard for the Vietnamese data center market, bringing VNG products and services to overseas markets through joint ventures and international cooperation.
- Bringing AI Cloud closer to businesses in Vietnam and the region, anticipating key trends in the digital economy.

Driven by a comprehensive business strategy and strategic vision, VNG strives to deliver the best values to customers, partners, and the community.

Development Strategy

Risk Governance Strategy

VNG has analyzed, evaluated, monitored, and managed risks that affect its business direction and strategy across four key risk groups: Strategic Risks, Operational Risks, Financial Risks, Policy and Legal Risks.

Strategic Risks

Operating in a constantly changing and highly competitive technology and Internet landscape, VNG faces risks such as unsuitable strategic directions and investment allocation, which can lead to missed business opportunities and ineffective competitive strategies, ultimately resulting in a loss of market share.

Mitigation Strategies

- Continuously updates on the latest trends through market research, participation in specialized conferences, and collaboration with experts.
- Organizes annual strategy conferences to discuss business directions, evaluate market conditions, and make crucial decisions.
- Cooperates with reputable partners to increase service standards, and trains and develops teams to improve expertise.

Operational Risks

VNG's information technology systems and infrastructure are critical foundations, exposing the company to various operational risks, including technical problems, cyberattacks, and changes in human resources and supply chains.

Mitigation Strategies

- Invests in IT systems, conducting regular upgrades and maintenance to ensure stability and security.
- Adopts advanced cybersecurity measures to protect IT systems and builds a high-quality workforce to ensure operational efficiency.
- Fosters long-standing collaborative relationships with partners and suppliers and implements contingency policies to minimize risks.

Financial Risks

VNG's multinational operations come with financial risks, such as foreign exchange (FX) rate fluctuations, which can impact revenue and profits when conducting business abroad.

Mitigation Strategies

- Regularly monitors FX rate fluctuations and uses forecasting tools to assess potential risks.
- Diversifies foreign currency revenue streams across various markets and customer segments to mitigate the impact of FX fluctuations.
- Implements FX hedging policies such as foreign currency options contracts or forward contracts to limit exposure to FX fluctuations.

Policy and Legal Risks

Expanding business activities internationally exposes VNG to policy and legal risks, particularly the challenges of understanding and complying with business and labor regulations, as well as cultural differences and practices of multinational partners and personnel.

Mitigation Strategies

- Regularly monitors government policies in countries where business operations are conducted.
- Proactively researches and proposes suitable solutions to stakeholders to solidify the role of IT in promoting economic growth.
- Organizes training on host country culture and laws for employees to ensure they understand and comply with relevant regulations.

2023 Achievements

Making artificial intelligence a new growth engine:

By researching and integrating Generative AI and Cloud AI into its products and services, VNG continues to solidify its status as a "Technology Champion" and a pioneering force in Vietnam's tech landscape.

Positive contributions to national digital transformation:

Leveraging its technological expertise and a team of leading professionals, VNG provides effective technology solutions that support regulators, businesses, and individuals, thereby fostering the country's overall development.

Maintaining a strong recovery spirit and adapting to market fluctuations:

VNG remains focused on optimizing costs and streamlining operational processes to achieve sustainable growth, while also expanding its presence in international markets.

With unceasing efforts, VNG has realized many impressive milestones in 2023, reaffirming our position as a leading technology enterprise in Vietnam, advancing national digital transformation, and expanding our reach to the international level.

(1) Net revenue is adjusted due to changes in accounting policies in 2023

(2) According to the Great Place to Work Survey 2023

Typical Activities

Promoting AI research and development

VNG built a server cluster of 8 DGX H100 machines to train large language models (LLM), unveiling a 7-billion-parameter model that is considered to surpass GPT-3.5.

Digital transformation for businesses and cities

At Tech4Life 2023, VNG Digital Business introduced the latest digital transformation solutions, accelerating digital transformation for businesses and cities in Vietnam.

Developing eSports in Vietnam

By supporting Vietnamese eSports teams at the 32nd SEA Games and 19th ASIAD, VNGGames is affirming the position of Vietnamese eSports in the regional arena.

Approaching potential investors

At the Vietnam-US High-Level Conference on Investment and Innovation, VNG expressed its vision for Vietnam to become Asia's technology capital and advocated for investment in Cloud and AI.

Expanding global markets

VNG opened 3 new offices in Taipei, Shanghai, and Beijing, affirming our commitment to reaching the whole world and laying the foundations for long-term growth in international markets.

Elevating public services efficiency

Zalo OA modernizes government procedures and connects the state with the people, aiding digital transformation in 63 cities and provinces, and boosting efficiency in public management and service delivery.

Promoting digital payment

ZaloPay launched the Multifunction QR code that accepts all payment methods, making transactions happen faster, safer, and more convenient for all users.

Innovating the automotive industry

Voice assistant Kiki has been installed in over 600,000 cars and selected for integration by 22 leading partners in automotive components and distribution, creating a smart and convenient driving experience.

Notable Honors and Awards in 2023

RANKED AMONG 10 ASIAN COMPANIES TO WATCH IN 2023 BY NIKKEI ASIA

According to Nikkei Asia, VNG - the first technology "unicorn" of Vietnam - has emerged as one of the country's most watched companies and is one of Southeast Asia's rising tech stars, offering services from gaming, messaging and mobile payments to artificial intelligence voice assistants and cloud computing.

CERTIFIED AS THE BEST WORKPLACE BY "GREAT PLACE TO WORK"

With 92% positive ratings from its employees, VNG was recognized by Great Place to Work® (GPTW), an international organization on workplace culture, in the same group as major global companies such as Adobe and DHL Express. This result far outstrips the average global business (53%).

AWARDED "MOST INNOVATIVE CSR COMPANY IN VIETNAM 2023"

The award is voted on by the reputable publication Global Business Review, based on the scale, nature, and social impact of an enterprise's CSR activities. VNG stands out among market leaders with a chain of ceaseless support activities for healthcare, education, and many other fields in Vietnam.

HONORED WITH A 2023 INSPIRATIONAL BRAND AWARD

VNG was honored in the "Inspirational Brand Award" category at the 2023 Asia Pacific Enterprise Awards (APEA 2023). This category assesses nominated enterprises based on three main criteria: goodness, wellness, and sustainability.

VNGGAMES HONORED AS LEADING GAME PUBLISHER OF THE YEAR

VNGGames was recognized as a Leading Game Publisher of the Year at the 2023 Vietnam Game Awards. As part of the 2023 Vietnam GameVerse series of events, co-organized by VnExpress, the Authority of Broadcasting and Electronic Information, and the Vietnam Games Development Alliance to connect the game enthusiast community in Vietnam and beyond.

ZALO CONTINUES TO BE THE MOST POPULAR COMMUNICATION APP IN VIETNAM

According to the Q4 2022 Connected Consumer report by MMA Vietnam and Decision Lab, Zalo continues to be the most used messaging app in Vietnam. This distinction helps Zalo maintain its position as the most popular and highest-rated messaging app in Vietnam since 2020.

ZION - ZALOPAY'S OPERATOR - BECAME A TOP 200 GLOBAL FINTECH COMPANY BY CNBC

The operator of the ZaloPay Digital Wallet was the only Vietnamese representative on the CNBC list of the top 200 global fintech companies, based on user numbers, transaction volumes, and revenue rates.

VNG DIGITAL BUSINESS MET THE ISO/IEC 27001 INTERNATIONAL STANDARD FOR INFORMATION SECURITY

The VNG Digital Business ecosystem is proud to be certified ISO/IEC 27001, ensuring information safety and data confidentiality for businesses on their digital transformation journey. In addition to ISO/IEC 27001, solution providers from VNG Digital Business hold recognized certifications that guarantee service quality and security.

VNG is one of Southeast Asia's rising tech stars,

offering services from gaming, messaging, and mobile payments to **AI products and cloud computing.**

— *Nikkei Asia*

VNG may be able to leverage this momentum to bolster Vietnam's economic development,

promote Vietnamese businesses in offshore markets and draw on increasing investor confidence in the age of **AI and cloud-based computing.**

— *DealStreetAsia*

VNG is considered one of the top technology companies in Vietnam, with aspirations of going global.

Games will be its spearhead, and VNG also seeks to add global revenue from artificial intelligence and cloud computing products. Its Zalo overtook Messenger to be Vietnam's top messaging app.

— *Bloomberg*

The company, headquartered in business capital Ho Chi Minh City, is one of Vietnam's leading game publishers and also has an office in Thailand.

It has ambitious plans to further expand into Southeast Asia, the Middle East and Latin America.

— *AFP.com*

Business Performance

Operation Results

VNG navigated a challenging macroeconomic environment in 2023 to achieve a successful year, driven by a resurgence in the Online Games segment and steady growth in global markets. Zalo solidified its position as Vietnam's leading messaging platform while diversifying its features and services for business customers. Despite a strategic decision to reduce investments in digital payments, the segment continued to exhibit robust growth in both user base and transaction volume, expanding partnerships with key players and introducing valuable financial products. – Le Hong Minh, Founder & CEO of VNG.

Game	2022	2023	YoY (%)

Financial Performance

Overview

(Unit – Billion VND)

ITEMS	ACTUAL		ANNUAL PLAN (*)	COMPARE ACTUAL FY 2022 AND FY 2023	
	FY 2022	FY 2023		FY 2023	Increase/Decrease
Total Assets	8,900	9,595		695	8%
Net revenue from sale of goods and rendering of services	7,801	7,593	9,281	(208)	-3%
Gross profit from sale of goods and rendering of services	3,437	2,288		(1,149)	-33%
Operating loss	(942)	(2,086)		(1,144)	122%
Other loss	(177)	(64)		113	-64%
Accounting loss before tax	(1,119)	(2,150)	(522)	(1,031)	92%
Net loss after tax	(1,533)	(2,317)	(572)	(784)	51%
Net loss after tax attributable to shareholders of the parent	(1,077)	(2,101)		(1,024)	95%

(*) Beginning in 2023, the Company has changed its accounting policy regarding the recognition of revenue from online games. Under the new policy, revenue is allocated based on the fair value of each obligation and recognized only when these obligations are fulfilled. Consequently, the financial statements of 2023 are not comparable with those of 2022. Also, the annual plan 2023 figures do not reflect the accounting policy change.

TARGET	2022	2023
1. Payability		
Current ratio: Current assets/Current liabilities	1.75	1.02
Quick ratio: Current assets - Inventory/Current liabilities	1.71	1.01

Employee Policies

Compensation Policies

Our compensation policies are based on principles of equality, transparency, and performance. Since 2013, VNG has implemented a compensation policy ensuring that 100% of employees understand the company's reward structure and how these rewards reflect their performance.

The compensation scheme at VNG includes four main components:

- **Salary** : Production and business salary (12 months); 13th month salary bonus on Lunar New Year;
- **Allowances** : Vehicles, mobile expenses, wireless devices, extra duty pay;
- **Bonus** : Depending on business performance, achievements in projects/jobs; Company anniversary bonuses;
- **Welfare** : Social/health/unemployment insurance, health and accident insurance for employees and their relatives; periodic health checks and vacation, team building, etc.

Promotion Policy

Several promotion policies have been established and maintained at VNG, including the core member policy, leadership rotation policy, and fair and transparent appointment and dismissal policy. Additionally, a successful referral program has been well-defined and implemented at VNG.

Training Policy

VNG's main training programs:

Training for new employees:

In-class and e-learning orientation

Professional training:

Employees are provided with sponsored training courses/international certifications to improve necessary knowledge and skills for their jobs.

Supplementary skill training:

All employees are encouraged to participate in soft skills and language training to adapt to development and integration trends.

Training for the next generation and management team:

Focus on developing high-potential employees for future leadership roles who can drive the company's growth.

Improvements in organizational structure, policies, and management

Approval electronic system and employee management: business travel approval, advance payment, payment of expenses... are all done through the electronic system without obtaining signatures of relevant departments, which saves time and paperwork.

Environmental and Social Responsibilities

Responsibilities to Employees

VNG is committed to improving the working environment and conditions for the well-being of our employees by fostering a positive corporate culture and creating a sense of loyalty and dedication to the company.

Environmental Responsibilities through Indicators

VNG actively minimizes electricity and water waste and educates employees about energy-saving practices to protect the environment. The company's solar power system generates an average output of 65.097 KWH per month, equivalent to 781.173 KWH per year. The water filtration system provides drinking water for employees at VNG Campus and VNG Data Center, with capacities of 5.000 liters per day and 3.000 liters per day, respectively.

Corporate Social Responsibility

VNG places equal importance on social responsibility and business development, aiming for a sustainable enterprise. We cultivate a culture of community responsibility among our employees, setting up campaigns and projects to support those in need by leveraging our tech expertise and energetic workforce.

Community Engagement

UpRace 2023

Recognized as a Company engaged in environmental protection and sustainable development

VNG is the only tech company to be awarded a certificate by the EU Delegation to Vietnam for its significant contributions to environmental protection and the promotion of sustainable green growth.

ASSESSMENT OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

Assessment of the Board of Directors on the company's operations

Navigating a year of macroeconomic crisis and market volatility, the Board of Directors has maintained close supervision and collaboration with the Senior Management Team across business operations from the beginning of the year. By the end of the financial year 2023, VNG's total revenue reached **8,605 billion dong**.

Through social efforts, VNG has been and will be on the mission of "**Build Technologies and Grow People. From Vietnam to the World**" with a determination to conquer all challenges.

Assessment of the Board of Directors on the Senior Management Team performance

Based on the CEO's report and actual business performance, the Board of Directors recognized the following results:

- The Senior Management Team successfully implemented authorized activities, adhering to the Resolutions of the Board of Directors.
- The financial reporting system complies with Vietnamese accounting standards and current regulations. The Company successfully prevented fraud and identified no signs of unusual transactions with stakeholders.

Plans and orientations of the Board of Directors

As part of the roadmap to diversify business areas and products to leverage its strengths as a leading Vietnamese tech company, along with a focus on maximizing synergy based on tech platforms, the Company strives to drive product innovation and growth and deliver a steady stream of high-quality offerings to society.

CORPORATE GOVERNANCE

The Company's 2023 Corporate Governance Report was submitted to the State Securities Commission, Hanoi Stock Exchange and published on VNG's website on January 30, 2024.

CHƯƠNG

03

FINANCIAL STATEMENT

The Company's 2023 Consolidated Financial Report was audited by Ernst & Young Vietnam Limited and published on VNG's website on 10th May, 2024.

Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of the Group as at 31 December 2023, and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the consolidated financial statements.

Emphasis of matter

We draw attention to Note 3.1 to the consolidated financial statements, which describes that during the year ended 31 December 2023, the Group has changed its accounting policy related to the recognition of revenue from online games. This change in accounting policy was applied from 1 January 2023 on a prospective basis, since the Group is not able to determine either the period-specific effects or the cumulative effects of the change up to the prior year-end, due to previous limitations in the gamers' data tracking system. Accordingly, the corresponding figures for the consolidated financial statements are not comparable with those of current year due to the impact of applying this change in accounting policy prospectively.

Our opinion is not modified in respect of this matter.
