## FNB VIET NAM SERVICE JOINT STOCK COMPANY

Coffee Is In Our Blood!

We grew up around coffee, for over two generations.

We produce coffee blending the rich traditions and hand-crafting of our unique culture with the technology processes required to produce coffee that can be called "Vietnam Specialty Coffee". Our long-term goal besides giving you a cup of the best tasting coffee you've ever had is to create a brighter future for not only our growers, roasters, brewers and staff but for school children, mothers and fathers, factory workers, IT professionals, business professionals and every person who proudly calls themselves Vietnamese!

From farm to table, every step of the way is the most important step! Our coffee is made from exclusive single origin coffee beans. They're freshly roasted and perfectly brewed.

## MANH CUONG AGRICULTURAL PROCESSING GROUP JSC

Our products are the result of fair cooperation and benefit-sharing between farmers and company. 100% of our farmer groups are disadvantaged ethnic minorities in Vietnam. Farmers are always an actor with a close relationship in the company's value chain.

We understand that respecting the environment and society is a way to develop sustainable products. Our products are always on creating positive values for the environment. We are also committed to becoming a company with net zero greenhouse gas emissions.

Applying organic certification with farmers has helped reduce unplanned exploitation, ensuring that lands are always covered with crops. The ecosystem is protected and developed. Farmers have increased awareness and no longer hunt wild animals. Waste is also controlled and treated better, the environment becomes cleaner.

# SOKFARM®

P.E.A.C.E  
for Community

Sokfarm means Happy Agriculture. Sokfarm was established with the desire to restore the local traditional method of processing coconut blossom nectar, creating livelihoods for low-income Khmer farmers who live in the mangrove areas of Tra Vinh province, Vietnam, which is heavily affected by climate change. With technical knowledge, we work with the locals to add value to traditional products, producing 100% pure, healthy, organic coconut nectars that comply with international standards.

From coconut blossom with a rich alluvial flavor of the Mekong Delta, harvested manually using the massage technique of the Khmer people in Tra Vinh, our products are processed at low temperature (55 degrees Celsius) with vacuum concentration technology in our factory that meets USDA, EU, JAS, ISO22000:2018 standards to help retain the most nutrition and natural flavor, Sokfarm has created coconut nectar products that different from other similar products in the world.

We are proud to be a Vietnam coconut nectar company to win the Great Taste Awards 2023.

## MEKONG COCONUT OIL (COCOVIE)

Mekong Coconut Oil Company (Cocovie) established in the Mekong Delta of Vietnam since 2013, specializes in the production of different types of PURE - UNREFINED Coconut Oil. When it comes to coconut oil production of different qualities and types, we are the one who knows A to Z.

Through our production and commercialization of coconut oil, we focus on protecting the Mekong Delta and improving lives of farmers so as to preserve the unique coconut culture by directly involving in the organic farming process of the farmers from whom we buy fresh coconuts.

We save Mother Earth for our Next Generation by providing environmentally friendly food made of coconut oil through a zero waste supply chain from farm to fork.
