1. Website Audit

Crawl your website using Screaming Frog connected with other data sources (e.g. GA/GSC).

Then assign action items to each URL based on the data.

2. Customer Research

Survey and interview your customers to learn the following:

- Problems before they started using your product
- How your product solves their problems
- Features they bought your product for (and actually use)
- Other solutions they considered (and why they chose yours)

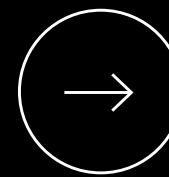

This will help you:

- Find and target pain points
- Speak to your target customers
- Guide them through the journey
- Convert them into customers

High-converting content =
Solving your target customers' problems by positioning your product as the main solution.

Customer research makes creating conversion content 100x easier.

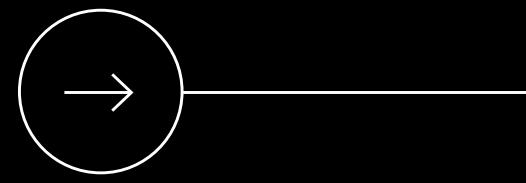

3. Topic Research

Export all of your competitors' keywords. Then do additional research using seed keywords found from data collected so far.

The goal is to create your Total Addressable Search Market (TASM).

Optimise

- Technical Fixes
- Optimise Existing Content

5. Technical Fixes

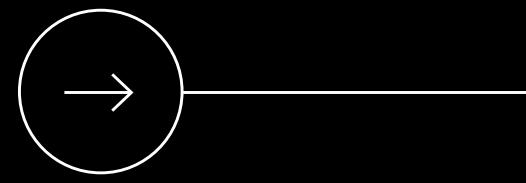

Fix any technical issues found from our audit in step 1.

For example:

- Noindexing pages
- Fixing canonical tags
- Creating your sitemaps
- 301 redirecting 404 pages
- Fixing your website structure

For majority of websites, technical fixes are a one-and-done task.

Aim to fix them all within 1 week.

6. Optimise Existing Assets

Get more from your existing pages before publishing new content.

- Match the intent
- Optimise current headings
- Add new headings/sections
- Write new featured snippets
- Add better conversion elements

New pages = Results in 3+ months

Updating pages = Results in weeks

7. Repurposing

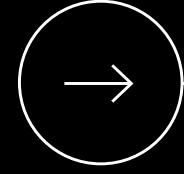

Before creating new content from scratch, think:

Have you already created content for other channels that you can turn into blog posts?

- LinkedIn posts
- Email newsletters
- Videos or podcasts...

If no, skip to the next step.

But if yes?...

Turn them into blogs posts:

The image shows three screenshots of LinkedIn posts from Jake Ward, each featuring a different template for creating LinkedIn posts. The first post is titled '20 LinkedIn Post Templates (+ REAL EXAMPLES)' and includes a callout for 'Surprising Facts'. The second post is titled '20 best LinkedIn post templates I've collected and shared on The LinkedIn Creator this month' and includes a callout for 'Impossible vs Possible'. The third post is titled '20 LinkedIn Post Templates (+ REAL EXAMPLES)' and includes a callout for 'The Difference Between X and Y'. Each post has a yellow border around it.

The image shows a blog post titled '60 LinkedIn Post Templates (With Real Examples)' by Jake Ward. The post is presented on a white background with a yellow border. At the top left is the Kleo logo. At the top right are links for 'Support', 'Newsletter', and 'Install on Chrome'. Below the title is a bio for Jake Ward. A large green arrow points from the LinkedIn post templates above down to this blog post. The blog post content includes a summary, a section on the AIDA copywriting formula, and a list of bullet points.

60 LinkedIn Post Templates (With Real Examples)

By Jake Ward
Sep 11, 2024

Want to streamline your LinkedIn content creation process?

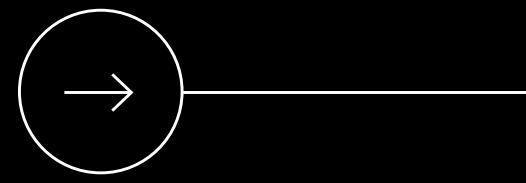

We've collected 60 of the best LinkedIn post templates (with examples and breakdowns) to help with ideation and inspiration.

Study them. Use them. Watch the results.

1. The AIDA copywriting formula

Tasleem executes the proven AIDA copywriting formula:

- He grabs **Attention** with a captivating hook that shatters a common belief
- He holds **Interest** by sharing concrete ways to pick up the pieces

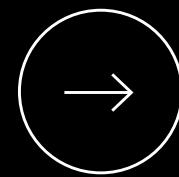

8. New Content

Now it's time to create brand new content from scratch.

Work with writer(s) to produce lower-funnel pages such as:

- Competitor alternatives
- Competitor versus
- Product reviews
- Product comparisons
- Pain-point 'how tos'

These pages typically get **3%-15%** conversion rate.

You can use AI, but make sure a human edits the content to:

- Provide unique experience(s)
- Explain nuances in products
- Give helpful recommendations
- Better convert readers

The screenshot shows two pages from the Moosend website. The top page is titled '9 Best Free & Paid Mailchimp Alternatives For 2023' and features a list of 9 alternatives, with '1. Moosend' highlighted in green. A yellow arrow points from the green highlight on the list to the '1. Moosend' section below. The bottom page is a product landing page for 'The Easiest Email Marketing and Automation Software', featuring a visual diagram of email marketing components like 'Subscription Form', 'Newsletter', and 'Analytics'. Both pages include the Moosend logo and navigation links.
